35 20.20

Co. of Youngstown, N. J., was the principle of the Hoffman-Perry Iron and Steel continuation of the first king of Israel, but he may make good in both. Your career ends with the grave while your life for the Hoffman-Perry Iron and Steel all admit that Saul of Bible history made continuation of the first king of Israel, but he made a large way in his career as the first king of Israel, but he made a failure in life, and died by his own the plaintiff and Allegary Sword. Alexander the Great while yet. Treaday weather—Fair, continued mild.

St. MOON AND TIPES

Tight and a 30 30.20 trial Tuesday with Attorney Arthur T. Keefe for the plaintiff and Attorney Sword. Alexander the Great while yet the Great is lowest 30. Sursman told of going to the plant of the Great on Iron Works in Groton with Arthur J. Adams, president of the Adams Steel Products Corp. and the defendant and looking over the steel. On their return to the hotel, he testined that they talked over the purchase of France; he was a military genius, but the steel which the witness thought he lie made a great failure of his life and the life and services he was a military genius, but the steel which the witness thought he lie made a great failure of his life and that they talked over the purchase of the steel which the witness thought he could buy for \$10,000. He said that McCarthy said that he was to have the unand loaded on freight cars for nothing.

McCarthy asked what the profit from the sale of the steel would be and the witness thought it would be \$20,000. There are certain requisits to making good in one's career and also in one's functional the agreement in writing but McCarthy replied: "My name is McCarthy to where; steam is praction, we get no where; steam is prac-

Carthy replied: "My name is McCarthy tion, we get no where; steam is practically useless until it is concentrated it to piec, and then it works wondern admitted that Me McCarthy admitted that Mr. McCarthy had al-mars kert agreements with him. That night they went to New York till it was focussed; so if we would this firm, He was assured by Mr. Adams that it was all right and Sussman testified that he said: "If Adams is saids. The suppose I will have to be" and he returned to Toungstown.

James J. P. Coughlin of Jersey City, a former clerk in the office of Mr. Adams testified to a conversation he heard in the Adams office on Sept. 2. 1316, when Mr. Adams, Mr. Sussman and Mr. McCarthy were present. Adams said to McCarthy, according to the with the suppose of the Lold."

Dr. Roberts was heartly applauded and the men expressed their desire to have him as their regular speaker.

HARTFORD MAN PRESIDENT The annual meeting of the Connecticu at the home of Miss Jessie of Washington street. Those to Howard Bushnell of Octuan Earl Palmer, of List the president, Mr. Jackson, delivered the annual address. The result of the ballot in Bankruptcy cases for officers was the election of Robert J.

Clarke, Ansonia, in addition to the presi dent and the two vice presidents.

The newly elected president, Robert J. Ross, of Hartford, is a graduate of Massachuseuts Institute of Technology of the class of 1908, and has specialized particularly ularly in municipal engineering, though previous to entering into this branch of engineering he was identified with vari-ous electric rallway locations and miscellaneous engineering projects. He is a present assistant ofty engineer of Hart-

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a little Salts in water may say

cure, states a well-known authority We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water Rheumstism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin ar also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoon-ful in a glass of water and drink before breakfast each morning for a week This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleas ant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well

will realize, does not adequately repre-sent the total decrease in the income taaddition there will be a large percent who this year will not even have file a return because their earnings ot placee them in a classification when lling is necessary. This year it is es Imated about 75 per cent, of those filing est year will again file their returns

The caution was emphasized also that a person is in doubt as to whether or or he comes in a classificationn whe hould file the return as it will be only matter of time when the corporation y which he is employed wil file a statesent of the salaries which all of its em-

loxes receive. Those who will obtain the most ben-oft in the raising of the income tax exemptions rate will be the mechanics and the day workers as they are in the mjority of the total list of income tax

The percentage of the corporation tax-payers remains about the same as it was in the previous year.

Probably the most remarkable thing Probably the most remarkable thing about the civil aviation in the past year has been that not one passenger has been killed or even seriously injured, in a British airplane throughout 1921. And this, althugh, during the summer, between 400 and 500 people a week were crossing the channel by air, and although well over 1000 a week were being taken up for joy rides in this country. For this we have to thank not only the skill of the pilots and airplane mechanics, but the aeronautical inspection department and airplane mechanics, but the aeronautical inspection department and the controller of aerodrames and licenses, who have made sure that only first class men and machines have been allowed to carry passengers—London Opinion.
